

# 作品簡介

## 「便」化無窮 便利多元學生管理系統

現在的科技愈來愈發達，許多書面工作逐漸變成電子化，可能會有些許老師趕不上變化的速度，所以我們希望把各在課程上所學習到的功能，做成一個應用程式，利用PYTHON製作，並用網路爬蟲、TKINTER、PANDAS等等技術，以淺顯易懂的方式來幫助老師，已達成節省時間及減少問題的麻煩。

成果展現：

▲簡易計算機

▲BMI計算機

# INTRODUCTION

## ENDLESS "CONVENIENCE", CONVENIENT AND DIVERSIFIED STUDENT MANAGEMENT SYSTEM

NOWADAYS, TECHNOLOGY IS BECOMING MORE AND MORE DEVELOPED. MANY WRITTEN WORK IS GRADUALLY BECOMING ELECTRONIC. SOME TEACHERS MAY NOT BE ABLE TO KEEP UP WITH THE SPEED OF CHANGE. THEREFORE, WE HOPE TO TURN THE FUNCTIONS LEARNED IN THE COURSE INTO AN APPLICATION USING PYTHON, AND USE WEB CRAWLERS, TKINTER, PANDAS AND OTHER TECHNOLOGIES TO HELP TEACHERS IN AN EASY-TO-UNDERSTAND WAY, SAVING TIME AND REDUCING TROUBLE.

### ACHIEVEMENTS DISPLAY

▲CALCULATOR

▲BMI
